### DETAILED ACTION

### Election/Restrictions

- 1. Applicant's election of Species XVI, claims 1, 3, 6, 7, and 9-11, in Paper No. 10 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
- 2. Claims 2, 4, 5, 8, and 12-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species I-XV, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 10.

## Specification

3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

# Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Application/Control Number: 10/062,947 Page 3

Art Unit: 3724

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 1, 3, 6, 7, and 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Freund et al (DE 199 29 272) in view of Schaller et al.

Freund et al discloses the invention substantially as claimed except for a two-axis cutter. However, Schaller et al teaches a cutter system in which a two-axis cutter (13, 26) arranged orthogonal to each other is used to cut a cut larger sheet having photos thereon into individual photographic images including trim. See whole publication. Thus, it would have been obvious to the ordinary artisan at the time of the instant invention to provide the device of Freund et al with the two axis cutter as taught by Schaller et al in order to facilitate cutting of individual photos of desired dimensions.

#### Conclusion

- 7. Escobedo et al '067, Kline et al, McKay et al, Petersen, Chang et al, Ramaswamy et al, Escobedo et al '687, and Bland are cited as pertinent art.
- 8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles Goodman whose telephone number is (703)

Art Unit: 3724

308-0501. The examiner can normally be reached on Monday-Thursday between 7:30 AM to 6:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan Shoap, can be reached on (703) 308-1082.

In lieu of mailing, it is encouraged that all formal responses be faxed to (703) 872-9306. Any inquiry of a general nature or relating to the status of this application should be directed to the receptionist whose telephone number is (703) 308-1148.
